Re: Caulton Contracting

To Whom It May Concern,

Mr. Tim Caulton recently remodeled our kitchen. We can highly recommend him to anybody who needs or wants high quality remodeling work. He did an excellent job and was a delight to work with. Tim is meticulous and has many creative, helpful and workable suggestions. Tim made sure that our kitchen remodeling was all done right and finished ahead of schedule.

Also, very important to us was that we felt very comfortable leaving Tim access to our home while we were not around. The subcontractors Tim used on our job were also courteous and professional. Tim was also very patient in working with our insurance company when others of our bidders were not.

Though Tim was not the lowest bidder we had for our job, he was close. We feel that it was very worthwhile to pay the small difference and get the type of job that Tim gave us along with the security we felt with Tim. Again we recommend Tim Caulton very highly for any remodeling work.

Very Truly Yours,

Brooks P
