RE: Addition and Remodel

Dear Tim,

I want to thank you again for the excellent job your company did on the addition and remodeling at my house. We are fully moved into the new area and we are enjoying it a great deal.

I was especially pleased with the quality work that you and your crew performed and the attention that was paid to detail. You certainly achieved our goal of making the addition look like part of the original house plan and not an add-on. We are were pleased with every aspect of the job performed.

Please feel free to use my name as a reference at any time. I would be glad to recommend you to anyone because I know that the work will be performed with quality and integrity.

Sincerely,

Rob M  
Garland, Texas
